

2023 Grouping of World Sailing International Race Officers

The purpose of this grouping is to assist the Event Appointment Working Party in their work of appointing IROs to the limited events World Sailing are involved with as part of the race official team. The grouping along with other measures will be used by the EAWP to appoint international race officers to events where it exercises the right of appointment. The grouping list shall be published on the World Sailing website and shall be available for Organising Authorities, MNAs and Classes to assist with event appointments.

The grouping system identifies Standard, Developing Lead, Lead and Chief IROs. The system will also allow for the identification of Race Officers with the potential to reach this level. The grouping process is based on objective, performance-driven criteria aiming to encourage continuing professional development within the IRO community.

For June 2023 these International Race Officers have been Grouped as follows:
