Proposal

Add new item

F.1.7 Rigging Types

(b) RUNNING RIGGING

...

(x) VANG

Equipment connected to the **boom** and used to control the angle between the **mast**
and the **boom**. The term includes Gnav variations.

Current Position

As above

Reasons

1. The vang in its various names and forms (boom vang, kicker, gnav) is used in class rules and a standard term will make them simpler and more uniform.
