

Regulation 10

Technical Committee at Class World Championships

A submission from the Chair of the World Sailing Classes Committee, 420 Class, International Formula Kite Class Association, 470 Class, and International Cadet Class Association

Purpose or Objective

To clarify that the chair of the Event Technical Committee is an International Measurer of the class.

Proposal

Amend Regulation 10.4(d) as follows:

appoint an International Measurer **of the class** to **as chair of** the **event** technical committee for the world championships unless otherwise agreed with World Sailing;

Current Position

As above

Reasons

1. International Measurers are class specific
 2. To stress the importance for a World Sailing Class to maintain its right to hold a World Championship it would only make sense to appoint an IM of the class as chair of the event technical committee, to forego unnecessary discussion with the Organising Authority and within the event technical committee about the status and position of this IM.
 3. This also applies to classes that currently have no international measurer. World Sailing has made provisions in the regulations for such interim periods.
