Current Position

As above.

Reasons

1. Grouping of Race Officials are dealt with in Regulations 6.10.7.3(i), 6.10.8.3(i), 6.10.9.3(i), 6.10.10.3(i) and 31.17. related to four out of seven possible disciplines and only three have grouping done. Expression Judges, Technical Delegates and Classifiers are not under same umbrella.
 2. Grouping appears by unsatisfied judging community as arbitrary and inadequate and comments are that is "a corrupt system" on one extreme and on the other that is "at least not transparent". Many do not even apply for to be grouped. Not encourage and system is not respected.
 3. When umpire grouping in the past was abolished it was received as a relief. Now it is back in. On the groupings in all disciplines affected, list of grouped judges are very short.
 4. Existing process of educating, testing, getting experience at events is well established in Regulations but there is one missing link – activity and experience data. This proposal wishes to eliminate system people do not like and focus on creating one that will objectively collect data of every judge experience and activity plus existing knowledge given through appointing system respecting differences among disciplines too. This could be achieved easy, quick and cheap. We may name it e-ROC. Idea should be that all officials are included and that all their activity is taken into account helping EAWP in the process as well. With more objective system judging community would engage better with increased enthusiasm.
