

Para World Sailing Committee –

Rankings Working Party Report 2024

The Para Ranking is now again an integral part of the WS Ranking System and run by WS staff.

The Ranking 2024 has been calculated and published January 11, April 30 and July 30.

The PWSC Ranking is calculated for: - One-Person Keelboat Open (Norlin 2.4mR OD) - One-Person Keelboat Non-Technical Female and Male (Hansa 303) - Two-Person Keelboat Open (RS Venture Connect)
The 6 times a year publication - as in the Olympic segment - could not be implemented until now, which does in no way reflect the worldwide activities in the Para and Inclusion.

Calculation of the Ranking is based on the information provided by MNA`s, Clubs and hosts that run events. There is improvement but still there are organizers who do not and/or not in time transmit results to World Sailing.

The urgent wish of the Committee and the WP that the ranking list for the Para area is based on disciplines and not on classes could not be fulfilled so far.

Respectfully submitted Alfred Pelinka
