

PWSC Recommendations Not Based on Submission

This “yellow paper” is a summary of the Recommendations made by the Para World Sailing Committee on the 2024 Annual Conference Submissions

To consider and give an opinion on the following which are proposed by the PWSC for approval not based on submissions:

Item Committee Name Change

The Para World Sailing Committee recommends a name change to the Para Inclusive Committee to align with the revised, approved, and published Para Inclusive Strategic Plan 2024-2029. The work of the committee has evolved to include a wider range of sailors with disabilities beyond just the elite classified Para sailors to build the base of participants and grow this part of the sport.

Recommendation to Council: Approve

Notes:

Item Recommend Review of Regulation 25.8 re: Para World Championship Events

Para Sailing World Championships events currently reside under Regulation 25.8.10. At this time, sailing is not in the Paralympic Sport Programme. As such, it is unclear as to where Para Sailing World Championships should reside within regulation 25.8 as related to International Race Official Appointments.

The PWSC recommends a review of the assignment of Para World Championship events under Regulation 25.8 since mandatory requirements for appointments are placing an undue burden on Organizing

Authorities who are hosting Para World Championships. The increasing financial burden related to the number of IROs required is becoming untenable for OAs hosting Para Championships. A review would allow World Sailing to consider all factors concerned and help address current issues that are affecting the delivery of these Para World Championships.

Recommendation to Council: Approve

Notes:
