

New Constitution

Article 36.1(c)

A submission from the International Formula Kite Class Association

Purpose or Objective

To establish a Sub-Committee for International Technical Delegates

Proposal

Amend Article 36.1(c) as follows:

International Judges Sub-committee, International Measurers Sub-committee, Race Management Sub-committee, **International Technical Delegates Sub-Committee** and International Umpires Sub-committee, each of which report to the Race Officials Committee and consider appointments, education and training, development of race official policies, grouping and matters affecting their respective race official disciplines; and

Current Position

As above

Reasons

1. There is currently no International Technical Delegates Sub-Committee
 2. The number of International Technical Delegates has significantly grown over the past years.
 3. International Technical Delegates are critical for the delivery of World Sailing's pinnacle events, yet currently International Technical Delegates are only managed through a Working Party, there are no structures for education, appointment etc as for the other disciplines.
