International Umpires Sub- Committee

Approved Working Groups

30 June 2025

<u>Working Group</u>	<u>Lead</u>	<u>Members</u>
Digital Umpiring Increased use of digital tools is one core area of WS strategy and therefore it is important that the IUSC consider how to utilise these tools for use in umpiring. The intention of this WG is to allow us to appoint subject matter experts (e.g. especially with kites/IQFoil) in order to advise IUSC on best practice for these classes. IUSC can then put the best practices as recommendations to ROC. For these areas, it is right that the experts be consulted on what will work best for their respective classes. The recommendations from this WG will then be taken to the ROC Digital Officiating WG.	Craig Mitchell (GBR)	Sandy Grosvenor (USA) Richard Slater (AUS) Miguel Allen (POR) Sam Ross (GBR) Arnaud Mante (FRA) Marina Psychogyiou (GRE) Sofia Truchanowicz (POL)
Umpire Equality, Diversity and Inclusion As of 2025, the IU community stands at approximately 13% women, and with the vast majority of officials coming from Europe and the US. It is well understood that there is an urgent need to change this. We therefore propose a WG which will be composed of members of the underrepresented communities, to provide advice and guidance on what the main challenges to becoming an umpire are from their perspective, and how IUSC can adapt and develop the	Alina Stratigiou (GRE)	Sian Reynolds (GBR) Sarah-Louise Rossiter (IRL) Martin Sanchez (URU) Soma Pillai (IND) Andres Perez (ESP) Leatrice Oatley (BER) Xiaolong (Jerry) Xu (CHN)

umpire programme to remove them. This group will also consider ideas for future educational activities that might better engage these groups.		
Umpire Documents Several of the manuals, while updated to the new rules periodically have not have a major rewrite for some time. There is an opportunity to review all these documents more thoroughly and make their content more consistent. In addition, we have new disciplines which are umpired, such as the Kite and iQFoil, and we should consider whether there is a need for additional content to cover best practice for these disciplines.
