

Applications for World Sailing Class Status

1. Introduction

- 1.1 Applications for World Sailing Class status are governed by Regulation 15 and Policy D1, which include requirements for governance, rule compliance, equipment distribution, and administrative documentation.
- 1.2 A Working Group was established to assess the submitted applications against these requirements, focusing on global distribution, governance structure, class rules, and documentation. The Working Group presented its recommendations to the Equipment Committee.
- 1.3 The Equipment Committee completed its review of the applications and voted on recommendations to the Board. The Board subsequently approved these recommendations, and in accordance with Regulation 15, the following applications are now submitted to the General Assembly.

2. Decisions taken by the Board

The Board recommends that the General Assembly approve, subject to agreements being concluded, the following applications for World Sailing Class Status:

- (a) X-15 Class,
- (b) Formula Wing Class,
- (c) RS Venture Connect,
- (d) 11 meter One Design Class,
- (e) VX One Class.
